THE ORGANISER

The Construction Research Institute of Malaysia (CREAM) is a research institution of Construction Industry Development Board (CIDB) and company limited by guarantee dedicated to improve Malaysia construction industry through research and consultancy, certification as well as testing facilities.

Established since 2004, CREAM will be the frontier in providing research insight in Construction 4.0, advanced materials, sustainability, forensic and structural engineering, IBS, construction productivity as well as affordable housing.

ABOUT THE CONGRESS

Construction Industry Congress (CIC) 2026 – “Powering the Future of Construction” is Malaysia’s premier platform that unites industry leaders, policymakers, and innovators to drive the next wave of transformation in construction. The congress highlights the adoption of digital technologies, sustainable practices, and resilient infrastructure, providing participants with insights, strategies, and solutions to navigate the evolving landscape of the construction industry and shape a smarter, greener, and more efficient future.

FOUR KEY REASONS TO ATTEND CIC 2026

- Learn how digitalisation, smart construction, and sustainability are reshaping the industry.
- Network with top contractors, developers, policymakers, and innovators driving change.
- Discover solutions in AI, BIM, green construction, and resilient infrastructure.
- Enhance skills, knowledge, and industry exposure to stay ahead in a rapidly evolving sector.

WHY NEED TO ATTEND?

- Understanding the industry’s evolving landscape and emerging trends
- Insights into efficiency, innovation adoption, and project performance improvement
- Alignment with national and regional construction standards and policies
- Opportunities to engage with forward-looking strategies shaping the future of construction

WHO SHOULD ATTEND?

- Contractors, builders, and developers
- Consultants (engineers, architects, quantity surveyors)
- Government agencies and policymakers
- Technology providers and innovators
- Industry professionals and researchers
- Regional stakeholders from ASEAN and East Asia
- Sustainability and ESG practitioners
