

INTERNATIONAL ADVISORY COMMITTEE

Construction Industry Congress 2026

Professor Bankole Awuzie
Faculty of Construction Management and Quantity Surveying
University of Johannesburg, South Africa
Specialisation: Digital Built Environment, Circular Economy, Construction Education

Professor Nurmin Bolong
Faculty of Engineering
Universiti Malaysia Sabah, Malaysia
Specialisation: Environmental engineering, Engineering education, water and wastewater treatment

Professor Shuyang Cao
College of Civil Engineering
Tongji University, China
Specialisation: Wind Engineering, Numerical and physical modelling

Professor Anmar Dulaimi
College of Engineering
University of Warith Al Anbiyaa, Iraq
Specialisation: Pavement Engineering, Sustainable Construction, Civil Engineering Materials

Professor Chien-Ho Ko
Faculty of Civil, Environmental & Architectural Engineering
University of Kansas, USA
Specialisation: Project Management, Engineering Management , Production Management

Professor Aysha Zeneeb Majeed
Faculty of Civil Engineering,
Rajagiri School of Engineering and Technology, India
Specialisation: Structural Analysis and Design, Building materials, Energy Simulation in Buildings

Professor Rana Maya
Faculty of Construction Engineering and Management
Latakia University, Syria
Specialisation: Performance and quality management, Building information modeling, Sustainability, Smart cities, Optimization

Professor Erastus Mwanaumo
Directorate of Research and Development
University of Zambia, Zambia
Specialisation: Infrastructure Construction Project Management, Sustainability, Regeneration, Technology & Climate Change, Contract, Construction, Development Management, Environment in infrastructure development & construction

Professor Chidozie Nnaji
Faculty of Civil Engineering
University of Nigeria, Nigeria
Specialisation: Water supply, Environmental impact, Water quality and treatment, Environmental pollution

Professor Vasudev R
Faculty of Civil Engineering
Toc H Institute of Science and Technology, India

Specialisation: Sustainable Materials, Sustainable Construction, Repair and Rehabilitation, Forensics in civil engineering

Professor Hafnidar A. Rani

Faculty of Civil Engineering

Universitas Muhammadiyah Aceh, Indonesia

Specialisation: Project Management, Project Risk Management, Sustainable Construction, Construction Planning and Scheduling, Cost Estimation

Professor Bassam A. Tayeh

Civil Engineering Department

Islamic University of Gaza, Palestine

Specialisation: Construction Materials

Professor Dr. Shih-Hsien Sam Yang

Department of Civil Engineering

National Cheng Kung University, Taiwan

Specialisation: Pavement Material and Design, Engineering Carbon Footprint

Professor Sureyya Yigit

School of Politics and Diplomacy

New Vision University, Georgia, USA

Specialisation: Digital transformation, Energy security, Sustainable development
